

# MITTAPALLI INDU

**SOC Analyst | Cybersecurity Analyst | SIEM | Incident Response | Threat Detection**

indumittapalli18@gmail.com · +91 8074230455 · Hyderabad, India · [linkedin.com/in/indu-mittapalli](https://www.linkedin.com/in/indu-mittapalli) · [github.com/Indumittapalli](https://github.com/Indumittapalli)

## SUMMARY

---

SOC-focused Cybersecurity graduate and CompTIA Security+ certified professional with hands-on experience in security monitoring, SIEM operations, alert triage, incident investigation, Windows Event Log analysis, network traffic analysis, IOC extraction, and threat detection. Practical experience with Splunk, IBM QRadar, Wazuh, Sysmon, Wireshark, pfSense, and Kali Linux. Skilled in investigating suspicious authentication activity, network anomalies, phishing indicators, and potential security incidents using log and packet analysis. Familiar with MITRE ATT&CK, incident response lifecycle, threat intelligence, vulnerability assessment, and threat hunting fundamentals. Built SOC home-lab environments to practice centralized logging, endpoint monitoring, firewall analysis, detection engineering, and attack investigation.

## PROFESSIONAL EXPERIENCE

---

### VELTRIXIS TECHNOLOGIES PRIVATE LIMITED

#### Cyber Security Analyst Intern

Hyderabad

Aug 2025 – May 2026

- Monitored and analyzed security alerts, Windows Event Logs, and network activity using SIEM platforms to identify suspicious behavior and potential security incidents.
- Performed alert triage by validating indicators, analyzing event context, identifying potential attack techniques, and determining appropriate escalation requirements.
- Investigated Indicators of Compromise (IOCs), including suspicious IP addresses, domains, authentication events, and network activity to support incident investigations.
- Assisted with incident response activities including initial investigation, evidence collection, timeline analysis, root cause analysis, and security incident documentation.
- Analyzed security logs and network traffic to identify suspicious authentication activity, anomalous connections, and potential malicious behavior.
- Supported threat intelligence validation and vulnerability assessment activities to identify security risks and improve detection and response capabilities.

## PROJECTS & HANDS-ON LABS

---

- **MemorySOC – Hindsight AI SOC Investigation Engine** – Developed an AI-powered SOC investigation engine using FastAPI, Hindsight, PostgreSQL, and CICIDS2017 to analyze security events and retain investigation knowledge as persistent organizational memory. Implemented workflows for alert generation, historical context retrieval, and context-aware security investigation.
- **SOC Home Lab – Threat Detection Environment** – Designed a security monitoring lab integrating pfSense firewall, Sysmon endpoint telemetry, and CrowdSec. Generated and analyzed attack simulations, investigated endpoint and network logs, extracted IOCs, and practiced detection and incident investigation workflows.
- **Splunk SIEM – Security Log Analysis & Detection**  
Built SPL queries to investigate DNS, SSH, and HTTP activity and detect brute-force attempts, suspicious DNS behavior, abnormal HTTP traffic, and potential indicators of compromise. Created dashboards to support security monitoring and SOC investigations.
- **Decision Tree Based Web Vulnerability Detection**  
Developed a machine learning model to identify potentially malicious web requests using HTTP request features, supporting automated detection of suspicious web activity.

## TECHNICAL SKILLS

---

- **SIEM & Security Tools:** Splunk (SPL), IBM QRadar, Wazuh, TheHive (SOAR), Wireshark, Kali Linux, Sysmon
- **SOC Operations:** Security Monitoring, Alert Triage, Incident Investigation, Phishing Analysis, Malware Investigation, IOC Extraction, Threat Hunting
- **Networking:** TCP/IP, DNS, DHCP, Firewalls, Network Troubleshooting, Firewall Concepts
- **Security Frameworks & Fundamentals:** MITRE ATT&CK, Vulnerability Assessment, Endpoint Security, Cloud Security Fundamentals
- **Programming & Query Languages:** SQL, Basic Python, SPL
- **Operating Systems:** Windows, Linux, Kali Linux
- **Professional skills:** Problem-Solving, Attention to Detail, Technical Documentation, Team Collaboration

## EDUCATION

---

### Institute of Aeronautical Engineering

B.Tech in Computer Science and Engineering (Cyber Security)

Oct 2022 – May 2025

CGPA: 8.73

### Government Polytechnic, Kothagudem

Diploma in Electronics and Instrumentation Engineering

Jun 2019 – May 2022

CGPA: 9.79

## **CERTIFICATIONS**

---

- CompTIA Security+ (SY0-701) – CompTIA
- Certified Cybersecurity Educator Professional (CCEP) – Red Team Leaders
- SIEM Engineering Path – LetsDefend
- SOC Analyst Path – LetsDefend
- Introduction to Cybersecurity – Cisco Networking Academy
- Networking Fundamentals – Cisco Networking Academy
- Foundations of Cybersecurity – Google
- Zscaler Academy – Fundamentals of Cybersecurity (EDU-102)

## **ACHIEVEMENTS**

---

- Member, e-DAM & Google Developer Student Club (IARE)
- College Kabaddi Team Captain and State-level Participant
